Subject: Group Meeting & Seed Exchange

Attachments: Seed Exchange Letter Sept 2013.doc

Dear Member

I hope you have all had a good summer - despite the late spring in the UK the *Meconopsis* caught up well and bloomed profusely.

The Meconopsis Group

The next Group meeting of The Meconopsis Group is on **Saturday 26th October at the RBGE.**

The program will be sent separately nearer the time.

RHS trial of big perennial blue poppies (2010-2013)

The RHS Trial has now concluded but has to be ratified officially before information can be made available. A full report will be made at the October Group meeting. Pat Murphy will be a main speaker on the RHS Trials.

Seed Exchange letter

I have also attached the Seed Exchange letter from Dr. Ian Scott, our new Seed Exchange Manager.

I will be in touch in October with the Newsletter and program for the meeting.

Kind regards
Norma McDowall
(Secretary)
