Subject: Awards of Garden Merit

Dear Member

The Meconopsis Group

The Committee are delighted to let you know the following 'good news':-

At our very successful meeting yesterday at the RBGE (26th October), with about forty members present, it was announced that ten plants have been awarded an Award of Garden Merit by the RHS this week, and one Award was re- confirmed.

The successful plants awarded an AGM are:-

***MM.* 'Slieve Donard' (confirmed), 'Bobby Masterton', 'Dalemain', grandis 'Himal Sky', 'Inverewe', 'Mrs Jebb', 'Keillour', 'Marit', 'Mop-head', 'P.C. Abildgaard', 'Susan's Reward'**

The plants that were in the Trial but not awarded an AGM in 2013 will be further assessed in 2014.

This is a great achievement, and all who have been involved are thanked for all their hard work on our behalf.

Further information will be available shortly on the website, and reports from the meeting forwarded when available.

Best wishes

Norma McDowall
